

Lake Region School Trails, Naples

These trails are listed in local walking information, but frankly, there isn't much to them! There are some connector trails between the high school and middle school, and they're probably used by the cross-country team and maybe local dog walkers. However, any trail is a good trail if it passes through nature!

Directions: A good place to pick up these trails is from Lake Region Middle School's athletic fields. If you park at the school's parking lot (probably it's good to avoid school hours) off Kansas Road, you'll see the wide trail across the field almost directly opposite the school.
